Legal notification printed at larger size for affidavit.

The Delaware Department of Natural Resources and Environmental Control (DNREC) and Department of Agriculture for the Draft National Pollutant Discharge Elimination System (NPDES) General Permit for Large Concentrated Animal Feeding Operations (CAFOs) - Manure Generation and Land Application Facilities already issued which covers Large, Medium, & Designated Poultry CAFOs – without Land Application CAFOs – with Land Application of Manure.

A CAFO permit is a point source permit authorized by the Federal Clean Water Act that is required to discharge pollutants into waters of the state, including streams or drainage ditches. In the State of Delaware, the CAFO program. The purpose of the CAFO permit is to regulate activities at CAFOs involved in manure management to maintain the quality of waters of the state.

Once a CAFO General Permit is issued, in order for a permittee to obtain coverage under the permit, the permittee must comply with the applicable requirements in Section 9.5 of DNREC's Regulations Governing the Control of Water Pollution. A Nutrient Management Plan for DNREC and DDA review. Notice of Intent and Nutrient Management Plan authorization being issued. This CAFO permit would be applicable to operations which have one or more of the following number of animals:

Animal Type	Number of Animals: Medium CAFO
Laying hens or broilers, with a liquid manure handling system	9,000 to 29,999
Chickens except laying hens, without a liquid manure handling system	37,000 to 124,999
Laying hens, without a liquid manure handling system	25,000 to 81,999
Cattle other than mature dairy cows or veal calves.	300 to 999
Mature dairy cattle, whether milked or dry cows	200 to 699
Swine, each weighing over 55 pounds	750 to 2,499
Horses	150 to 499
Sheep or lambs	3,000 to 9,999
Turkeys	16,500 to 54,999

On the basis of lawful standards and regulations, DNREC proposes to issue the draft CAFO General Permit under Section 9.5 of DNREC's Regulations Governing the Control of Water Pollution.

A public hearing on the above application will NOT be held unless the Secretary of DNREC determines that a written meritorious objection to the application is received by 4:30 p.m. May 11, 2021. A public hearing will be held to provide the public an opportunity to express their views on the application and provides a reasoned statement of the action's probable impacts.

Copies of the Fact Sheet and Draft Permit are available at <https://dnrec.alpha.delaware.gov>
